

## CSIT101 – Lab 1

**File name: YourName\_Lab\_1.py**

Write a Python program to introduce yourself to me. The program must read in

- Your name
- Your age
- Your gender
- Your hobbies

Upon execution of your program, your program should show the following interactions:

```
Enter your name: Heng A K
Enter your age: 23
Enter your gender: Male
Enter your 1st hobby: Watch movie
Enter your 2nd hobby: Eat, sleep ... skip classes :)
```

and display:

```
My information
Name: Heng A K
age: 23
gender: Male
Hobby 1: Watch movie
Hobby 2: Eat, sleep ... skip classes :)
Thank your for reading my info :)
```

To enable me to test your program, the last statement of your program must end with the following statement:

```
input ("Press enter to terminate")
```

Execute your program in front of me and upload your Python program to Moodle. The file name MUST be **YourName\_Lab\_1.py**
